Mode of assessment

Online assessment

You'll complete short answer questions, long answer questions, scenario-based questions, and multiple-choice questions to show what you know in different ways.

Case studies

You'll complete case study questions that let you apply your knowledge to real-life examples. This gives you a chance to use your skills in a practical context.

Portfolio of evidence

During work placement, you'll collect a portfolio of evidence to show your skills and knowledge. This portfolio will be made up of workplace documents, work samples, notes and meeting minutes.

Work placement assessment

During work placement, you'll be observed and assessed in a real-time working environment or in a simulated environment that reflects workplace conditions.

Third party reports

Sometimes your assessor can't be there to watch you work. Third Party Reports fills that gap by giving your assessor a clear picture of your performance from a supervisor or manager who has observed you in the workplace.
